

### End of KS2 Outcomes for 2016:

The 2016 Performance Data for schools is not published nationally until October 2016. Below are the Key Stage 2 most recent results for tests undertaken by children at Wren's Nest in May 2016.

The raised expectation for children to be considered as reaching the "expected" level is a real challenge for children at Wren's Nest. The children enter school with exceptionally low levels of attainment and we work hard to close the gap for these children with their peers nationally. We have been successful in doing this with a large percentage of the cohort gaining Level 4+. Maths is a strength of the school and in 2015 92% of our children achieved a level 4 or better vs 87% of children Nationally, 86% of our children attained a Level 4B+ vs 77% of children nationally. However in 2016 only 46% of the children reached the expected standard. Raising attainment and increasing the percentage of children who meet the new expected level is a key priority for Wren's Nest in the coming year.

L4+ 2015 results	WN 2015	Nat 2015
Maths	92%	87%
Reading	76%	89%
Writing	80%	87%

### Combined percentage for Reading, Writing and Maths:

Our combined percentage of children reaching the new expected standard across all subjects was 21% which is significantly below the national figure whereas in the two previous years the gap had narrowed to 7%. However 4% of our children achieved the high scaled score standard of 110+ vs 5% of children nationally - Our most able children closely matching the attainment of most able children nationally.
